# KULDEEP KUMAR

Noida, Uttar Pradesh

📞 +91 7701855045  ✉ kuldeepk11139@gmail.com

## Education

**Sarla Chopra DAV Public School**                    **March 2013 - August 2023**
*High School (91%)*

**JSS Academy of Technical Education**                    **October 2023 - Present**
*Bachelor of Technology in Information Technology*

## Experience

**Persist Ventures**                    **April 2025 – June 2025**
*Full-Stack Developer Intern*

- Collaborated with a cross-functional team of 7, where I had to build scalable production-level web applications.
- Contributed to both frontend and backend dev, making user experience seamless and robust server side functionality.
- Actively solved technical challenges during live production, improving system stability and performance.
- Worked with modern web technologies and followed best practices in version control, code reviews, and agile development.

## Projects

**VaultMeet (SaaS)** | *Docker, TypeScript, Next.js, Node.js, Redis, Zustand, Socket.io, Agora, AWS, Phaser.js* | GitHub | Live

- A 2D virtual platform enabling users to explore upcoming events, host their own events, and network in an immersive gamified environment.
- Features real-time chat, proximity-based Agora video calling, collaborative whiteboard, user profiles — all integrated into an interactive Phaser.js map.

**VedicVerse** | *MongoDB, React.js, Express, Node.js, Flask, MUI, JWT, bcrypt, Phaser.js, 3.js* | GitHub

- Developed an immersive digital platform blending ancient Indian mythology and spirituality with modern technology.
- VedicVerse offers an interactive and educational experience where users can explore 2D narratives and engage with mythological events in a metaverse setting with an AI model integrated for In-game NPC.

**VaulTrade** | *MongoDB, React.js, Express, Node.js, Tailwind, GSAP, Chart.js, Google OAuth* | GitHub | Live

- A web-based paper trading platform that provides real-time market data, multi-period stock charts, and essential trading insights with an intuitive dashboard to track profits and losses.
- Features a sleek, interactive UI with smooth animations and plans for advanced technical indicators and social engagement tools like leaderboards and community.

**VaultBlog** | *Node.js, React.js, MUI, GridFS, bcrypt, MongoDB, Express, JWT* | GitHub

- A dynamic blogging platform with category-based blog management, allowing users to post, edit, and delete blogs while ensuring secure authentication and image storage.
- Features a seamless user experience with intuitive navigation, enabling content creators to share their insights efficiently.

## Achievements

- **2nd Position**, VesHack 2024 (GGSIPU) - 36-hr Hackathon, **50K prize**
- **1st Place**, Ignition Hackathon 2025 (GBU) - Solo Hacker, **30K prize**.
- **Winner, Founder's Den** - Startup Pitch Competition
- Member, **Microsoft Mobile Innovation Lab** (MMIL) - Full Stack Web Developer

## Technical Skills

**Programming Languages**: Python, C++, JavaScript, SQL
**Frameworks/Libraries**: Node.js, Express, ReactJS, NextJS, Flask, Tailwind CSS, Phaser.js, GSAP, Socket.io
**Technologies/Tools**: MongoDB, RESTful APIs, Figma, Postman, Cursor, Mermaid, Docker, Redis
**Version Control/Hosting**: Git, Vercel, AWS, onRender
